

New MARC 21 Values/Fields: Summary

2006 TAG TABLE CHANGES FOR VOYAGER WITH UNICODE

This document summarizes changes to the LC ILS Tag Tables (UnicodeLCMARC21) made available in May of 2006.

Although these data elements are now valid in the LC ILS, not all of them will be actively supplied in LC cataloging (they may occur as “pass through” data elements in records done as copy cataloging). In general, this document summarizes the subset of newly available data elements from two aspects: 1) those to begin actively supplying; 2) those NOT to supply (those not actively supplied should be considered “pass through” data elements, unless otherwise indicated). This summary is relevant to general cataloging (all cataloging for the data elements NOT to supply). Application of newly available data elements relevant to cataloging done in the special format divisions will be determined by staff in those divisions, as will the guidelines for their application.

NOTE: Implementation decisions related to Update No. 6 (not yet published, but will be dated October 2005) to the MARC 21 formats are currently under negotiation; new elements/practices from Update No. 6 are **not** to be implemented by LC staff until further notice.

*****Staff should evaluate any customized templates and/or macros they may have developed to determine if these changes have an impact*****

1. BIBLIOGRAPHIC ELEMENTS	Actively Supply?	
	YES	NO
CONTROL FIELDS		
Leader/07 -- Bibliographic level new code: i Integrating resource <i>Implementation for *new* records only; decision on converting existing records is pending</i>	X	
MUSIC 006/04 and 008/21 - Music parts new values: d Instrumental and vocal parts e Instrumental parts f Vocal parts n Not applicable u Unknown		X X X X X (LC will continue to supply only fill)

1. BIBLIOGRAPHIC ELEMENTS	Actively Supply?	
	YES	NO
MUSIC 006/16 and 008/33031 - Transposition and arrangement new values: a Transposition b Arrangement c Both transposed and arranged n Not applicable u Unknown		X X X X X (LC will continue to supply only fill)
Serial 008/18 - Frequency new value: k Continuously updated (For language material integrating resources; previously coded in 006)	X	
Serial 008/21 - Type of Continuing Resource new values: d Updating database l Updating loose-leaf w Updating Web site (For language material integrating resources; previously coded in 006)	X X X	
Serial 008/34 - Entry Convention new values: 2 Integrating entry (For language material integrating resources; previously coded in 006)	X	
VARIABLE FIELDS		
260 - Publication, distribution, etc. (Imprint) repeatability of field define new first indicators: [blank] Not applicable/Earliest 2 Intervening publisher 3 Current/latest publisher		X X (DO NOT USE OR PASS THROUGH; implementation will be announced separately)

1. BIBLIOGRAPHIC ELEMENTS	Actively Supply?	
	YES	NO
NEW CHARACTERS		
spacing circumflex	X	
spacing underscore	X	
spacing grave	X	
opening curly bracket	X	
closing curly bracket	X	
spacing tilde	X	
degree sign	X (cease substitution of superscript zero)	
lowercase script L	X (unlikely to occur unless transcribing from printed cards)	
sharp	X (cease substitution of number sign)	
inverted question mark	X	
inverted exclamation mark	X	
Euro	X	
phono copyright mark	per rev. LCRI 1.4F5	
copyright mark	per rev. LCRI 1.4F5	
	DO NOT SUPPLY NEW CHARACTERS UNTIL REVISED LCRI 1.0E AND 1.4F5 ARE POSTED ON CPSO WEB SITE	
LANGUAGE CODES		
new MARC language codes:		
ain Ainu	X	
anp Angika	X	
frs Eastern Frisian	X	
krl Karelian	X	
zxx No linguistic content	X	
frr Northern Frisian	X	
alt Southern Altai	X	
srn Sranan	X	
gsw Swiss German	X	

1. BIBLIOGRAPHIC ELEMENTS	Actively Supply?	
	YES	NO
GEOGRAPHIC AREA CODES		
new GAC codes: u-atc-- Central Australia u-ate-- Eastern Australia u-atn-- Northern Australia u-cs--- Coral Sea Islands	X X X X	
MARC COUNTRY CODES		
new country codes: aca Australian Capital Territory xga Coral Sea Islands Territory xna New South Wales xoa Northern Territory qea Queensland xra South Australia tma Tasmania vra Victoria wea Western Australia	X X X X X X X X X
